

WORKPLACE SEATING

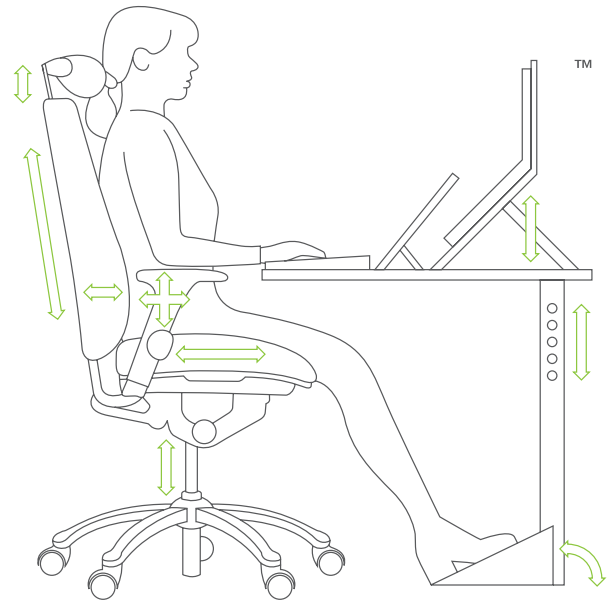

totalbackcare[®]
specialist ergonomic solutions

We have carefully selected the best seating available for back & neck care

Remember, there is NO one size fits all solution. Back & neck pain are unique to the individual and the environment in which they work, and so must the solution to their needs be. Even two people with the same ergonomic measurements may find different chairs or set ups suit them best. Other ergonomic factors, such as desk height and the optimal use of accessories should also be individually considered.

We always recommend that clients are assessed for a chair before purchase & have it correctly set up for their needs by one of our specialist team.

RH

The pivotal Free Float Mechanism (2PP tm technology), unique to RH chairs, ensures that the body receives the variation and support it requires when moving; as the chair's basic settings won't change. By maintaining upright posture, breathing and blood circulation are improved, whilst motion stimulates muscles.

RH chairs are 100% recyclable with many components made from recycled materials, using low energy technologies. RH is one of the few manufacturers with 'EPD (Environmental Product Declaration) certification, in compliance with ISO 14025 and certified in accordance with ISO 14001.'

Total Back Care has over 15 years experience in the specification, supply and installation of RH Chairs.

Features we like:

- Pivotal Free Float Mechanism – unique 2PP technology
- Back Height and Angle Adjustment
- Seat Height and Depth Adjustment
- Adjustable arms, neck rest and inflatable lumbar support options
- Great levels of comfort
- Easy to operate
- FIRA Ergonomic Excellence for 10 consecutive years
- Environmentally-friendly
- Ten Year Warranty
- Removable seat and back pads
- Short lead times

A Logic 400

Superb ergonomic features with high back & lumbar pump.

B Logic 300

Fully adjustable with lower back.

Good range of options including **XL** seat & '24/7 upholstery.'

C Logic 4

Highly durable & fully adjustable to provide optimum sitting comfort & strain relief.

Logic **Exclusive** versions have thicker padding & stitched seams whilst **Elegance** adds an upholstered back. Leather options available.

D Logic 3

Pronounced lumbar support & narrowing backrest.

E RH Extend

A choice of user friendly adjustments allows simultaneous movement or tailored seating angles – a good choice for hot-desking scenarios.

F RH Activ

Easy to use & fully adjustable to suit a wide range of users when correctly specified & set up. Ideal for use in call centres, multi user environments and as draughtsman chairs.

HAG

With a focus on balance and freedom of movement, HAG chairs are popular throughout Europe. One of the easiest ranges to adjust, with a simple lockable tilt mechanism. Good range of seat/ back heights and depths, making multiple use a possibility. Matching visitors chairs.

Total Back Care has over 15 years experience in the specification, supply and set up of HAG Seating.

Features we like:

- **Free Float Mechanism**
- **Back Height Adjustment**
- **Seat Height and Depth Adjustment**
- **Adjustable arms & neck rest options**
- **Weight Tension Control**
- **Removable Covers for Cleaning**
- **Ten Year Guarantee**

A Capisco

Award winning saddle seat option, adapts well to varying height work surfaces. Can be used back to front for those who work in a semi-standing position.

B HO3

Flexible & user friendly range. Utilises a high proportion of recycled plastic, making it environmentally sound.

C HO4 Credo

Established favourite, beautifully combining balanced posture and free movement with clean, timeless design.

D HO5

Ingeniously simple to adjust, with only one lever & one wheel.

Dimensions

Range	Capisco	HO3	HO4 Credo	HO5
Seat Height (mm)	410-820	390-785	385-790	390-785
Seat width (mm)	490	465-510	465-510	485

Back width (mm)	440	300-430	350-590	455-595
Back height (mm)	580	530-580	580-680	600-700

(All measurements to BS/EN 1335-1)

Wide variety of models within each range - our assessment service will ensure the correct specification is selected.

Visit www.hag-uk.co.uk for further technical specifications, environmental data, colour/ fabric choices & set up advice.

Please speak to our assessors for independent advice & guidance.

RBM

Another top class range from the Scandinavian Business Seating group. Fully adjustable back and seat, with tension controlled, free float mechanism which maintains maximum support levels during movement.

Features we like:

- **Free Float Mechanism – tension controlled**
- **Back Height Adjustment**
- **Seat Height and Depth Adjustment**
- **Armrest, neck rest and lumbar support options**
- **Great level of comfort**
- **Easy to operate**
- **Five Year Warranty**

A RBM 600

Dynamic seat & back encourages movement whilst seated. Natural 'S' shape of spine retained when user leans forward.

B RBM 700

Encourages a 'shoulders back' posture when resting. Fully independent seat and back adjustments.

C RBM 800

Fully independent seat & back adjustment to accommodate small & tall people. Protects against future back problems.

- Dimensions as a range guide only. Assessment & set up services recommended.
- Price depends on specification.
- Delivery 4 weeks.

Dimensions

Model	600 Series	700 Series	800 Series
Seat Height (mm)	445-585	435-555	520-885

Back tilt (deg)	25	25	25

Complies with European Std 1335 (Cat A) s.1, 2&3. Our assessments ensure the right choice.

Visit www.rbmfurniture.co.uk for further technical specifications, environmental data, and colour/fabric choices or speak to one of our assessors for impartial advice.

ERGOCHAIR

A great range based on the concept of adaptability. Specialist options are offered at low cost and some included as standard, such as a memory foam seat, seat slide & inflatable lumbar support.

Features we like:

- Free Float Mechanism
- Back Angle and Height Adjustment
- Seat Height and Depth Adjustment
- Inflatable Lumbar Support and Seat Slide as standard
- Memory foam seat pad
- Adjustable arms and neck rest options
- Low cost specialist options
- Adaptations to any size of person easily accommodated on the Adapt® range
- Special locking mechanism, Movement Lock®, to aid wheelchair/low mobility users

A Adapt 500®

Made to measure from a range of two sizes of interchangeable seat & backrest templates. Synchronous mechanism allows individual control of seat tilt angle & backrest angle.

B Adapt 600®

Asynchronous semi-knee tilt mechanism allowing individual control of the seat tilt angle & backrest angle. Three sizes of seat and backrest (interchangeable).

C Zento™

Designed to help to prevent back pain by encouraging great posture every day. Aluminium base with two-tone upholstery available. Excellent for small/medium sized projects.

The entire Ergochair range is tested to BS4559: Part 2:2000 standards and comes with a full 5 year warranty.

BMA

The seat and backrest move with a one to one rocking action, correctly supporting the pelvis, while the angle between back and seat remains the same. Major controls on both sides of the chair.

Features we like:

- Dynamic seat movement
- Permanent pelvic support
- Armrests width & height adjustable with rotating arm pad
- Right & left hand operation
- Back Angle and Height Adjustment
- Seat Height and Depth Adjustment

D Axia

Multi-use VDU chair's that provide for a wide range of individual seating requirements.

E Savvi Ergo

Neat and petite with a dynamic seat and back which helps to reduce static muscle strain by stimulating movement.

Dimensions
